## Product and Wire Identification Benchtop Printer Selection Guide

### Print solutions

<b>BBP12 Label Printer</b>	<a href="http://www.bradyeurope.com/bbp12">www.bradyeurope.com/bbp12</a>
The Brady BBP12 label printer is a compact, reliable, affordable entry level thermal transfer benchtop printer. Ideal for customers requiring low volume printing on lots of different materials within the electrical, voice and datacom, LAB and specialized electronics markets. It allows you to print labels, tapes, cable markers, sleeves and much more. This printer comes with a free Brady WorkStation Basic Design Software Suite, enabling you to immediately start designing professional labels.	

Applications: Asset tracking, Barcode labelling, Laboratory labelling, Wire and cable labelling

<b>i300 Industrial Label Printer</b>	<a href="http://www.bradyeurope.com/i300">www.bradyeurope.com/i300</a>
Get your ideal label printing scenario with the BradyPrinter i300 Industrial Label printer – labels and ribbons that snap into place, no calibration and no wasted blank labels. Wi-Fi connectivity allows you to get data more easily from a variety of sources. Print smart technology allows the printer to print on the first label – even sleeves and small labels. Print on a full range of safety and facility label materials.	

Applications: Asset tracking, Barcode labelling, Circuit board labelling, Component and equipment labelling, Data and telecommunications labelling, Electrical labelling, Facility identification, General identification, Hazard communication identification, Inventory and inspection labelling, Laboratory labelling, Lean and 5S labelling, Pipe and valve marking, Warehouse marking, Wire and cable labelling

<b>BradyPrinter i5300 Industrial Label Printer</b>	<a href="http://www.bradyeurope.com/i5300">www.bradyeurope.com/i5300</a>
Set up, switch out and print faster than you ever imagined with the BradyPrinter i5300 Industrial Label Printer. It's intuitive, auto-calibrating and precise, printing barcodes and small fonts on labels as small as 5.08 mm. With a solid, metal frame construction, it can handle both high-volume and high-mix labelling applications. This printer comes with a free Brady WorkStation Basic Design Software Suite, enabling you to immediately start designing professional signs and labels.	

Applications: Wire and cable labelling, Circuit board labelling, Barcode labelling, Laboratory labelling, Electrical labelling, Data and telecommunications labelling, Component and equipment labelling, Pipe and valve marking, Facility identification, Asset tracking, General identification, Solar Panel labelling

<b>BradyPrinter i7100 Industrial Label Printer</b>	<a href="http://www.bradyeurope.com/i7100">www.bradyeurope.com/i7100</a>
The BradyPrinter i7100 industrial thermal transfer benchtop printer is ideal for customers requiring reliable high volume printing on lots of different materials within the Aerospace, Defence and Mass Transit, Electronics, Automotive, Logistics, Electrical, Voice-Datacom and LAB markets. It guarantees accurate printing on sleeves, tags, labels, tapes, cable markers and much more. This printer comes with a free Brady WorkStation Basic Design Software Suite, enabling you to immediately start designing professional labels.	

Applications: Barcode labelling, Circuit board labelling, Component and equipment labelling, Data and telecommunications labelling, Electrical labelling, General identification, Inventory and inspection labelling, Laboratory labelling, Wire and cable labelling

<b>BradyPrinter i7500 Industrial Label Printer</b>	<a href="http://www.bradyeurope.com/i5100">www.bradyeurope.com/i5100</a>
High-performance 76 mm core label printing the way you never thought possible. Get 40-second part changeovers with no adjustments, no trial-and-error print tests and no wasted labels. LabelSense™ Technology allows the printer, Brady i75-Series materials and Brady software to communicate; automating and eliminating tedious adjustments and label-wasting tasks	

Applications: Barcode labelling, Wire and cable labelling, Electrical labelling, Data and telecommunications labelling, Circuit board labelling, Asset tracking, General identification, Laboratory labelling, Solar Panel labelling, Tamper Indicating Labels, Warehouse marking, Inventory and inspection labelling

<b>BBP72-PLUS Double-Sided Sleeve Printer</b>	<a href="http://www.bradyeurope.com/BBP72-Plus">www.bradyeurope.com/BBP72-Plus</a>
Save time, minimise waste and reduce sleeving errors with the high-volume BBP72-PLUS. It replaces time-consuming, error-causing rewinding and reprinting with a seamless, one-pass operation. Saves time with double-sided sleeve printing. Heavy duty, high-accuracy printing. Pairs with Brady Workstation software. Integrates with ERP/SAP systems. Crisp, clear printing with 300 dpi resolution. Less sleeve and ribbon waste.	

Applications: Wire and cable labelling

### Print & Apply solutions

<b>BradyPrinter A5500 Flag Printer Applicator</b>	<a href="http://www.bradyeurope.com/A5500">www.bradyeurope.com/A5500</a>
The BradyPrinter A5500 Flag Printer Applicator helps increase production output and enhance identification quality by automatically printing and applying flag labels. It can save quite a lot of money by identifying cables in 5 seconds and by eliminating the need to print labels in advance and the time needed to apply them by hand. The BradyPrinter A5500 enables 300 dpi prints for barcodes, logos and diagrams, and applies reliable cable flags that can communicate a lot of information.	

Applications: Data and telecommunications labelling, Electrical labelling, Wire and cable labelling

<b>Wraptor™ A6200 Wrap Printer Applicator</b>	<a href="http://www.bradyeurope.com/wraptor">www.bradyeurope.com/wraptor</a>
Get automated efficiency with the Wraptor™ A6200 Wrap Printer Applicator. It saves time with its one-step print and apply and easily fits smaller workspaces. Prints and applies labels to wires in less than seven seconds. Delivers fast material changeovers for added efficiency. Compact size enables cellular manufacturing workflows with easy set up multiple stations. Includes a full-color responsive touch screen and an icon-based user interface for ease of use. Enhanced connectivity with Wi-Fi, three USB ports and 32GB of internal memory to store file jobs. Ships with Brady Workstation Product and Wire ID Software Suite with built-in templates for fixed text or free-form label design options. Test before you buy: Brady can print and apply labels to a sample of your wire. Contact Technical Support for more information.	

Applications: Data and telecommunications labelling, Electrical labelling, Wire and cable labelling

<b>Wraptor™ A6500 Wrap Printer Applicator</b>	<a href="http://www.bradyeurope.com/wraptor">www.bradyeurope.com/wraptor</a>
Wraptor™ A6500 Wire ID Printer Applicator. Automate your wire identification process. The Wraptor A6500 Wire Identification Printer Applicator can significantly increase production output by identifying cables with wrap-around labels in 5 seconds. The Wraptor automatically prints and applies the label on a wide range of insertable cables, saving up to 10 seconds per identified cable. Increase productivity - cut labelling time in half to keep your output numbers high. Reduce errors - get sustainable, consistent identification without the rework. Make changes fast - intuitive full-colour touchscreen and user interface make changing settings easy. Print and apply self-laminating labels in five seconds. Automate time-consuming labelling tasks. Identify wires from 1.524 mm to 15.24 mm diameter.	

Applications: Data and telecommunications labelling, Electrical labelling, Wire and cable labelling

<b>BradyPrinter A8500 Printer Applicator</b>	<a href="http://www.bradyeurope.com/A8500">www.bradyeurope.com/A8500</a>
Print and apply system precision developed for applications such as PCB assembly and marking, component and product marking in high quality.	

Applications: Component and equipment labelling

<b>Flagmaker</b>	<a href="http://www.bradyeurope.com/flagmaker">www.bradyeurope.com/flagmaker</a>
Print and apply flag labels in just a few seconds to considerably increase production output. Quickly and consistently identify large volumes of cables with flag labels of 15 to 50 mm wide, and up to 150 mm long. Prints on a range of reliable label materials that remain legible and stay attached in challenging conditions	

Applications: Data and telecommunications labelling, Electrical labelling, Wire and cable labelling
